

Safe Boating - gear list and care instructions:

The gear and equipment supplied* to the course provider becomes the property and responsibility of the provider, and is supplied on the understanding that the equipment is primarily to be used to deliver the Safe Boating programme and must be returned to Coastguard Boating Education if delivery of the course ceases.

We recommend putting replacement life jackets into your annual budget to avoid having to replace all at the same time. You are able to buy Safe Boating branded life jackets through Coastguard Boating Education. Please contact Lisa at Coastguard Boating Education regarding this.

Item	Care instructions and storage notes
<p>Life Jackets</p> 	<p>Rinse with fresh water and store somewhere secure where they can dry. Storage options for life jackets include:</p> <ul style="list-style-type: none"> - Tie a piece of rope from one side of storage room to the other and hang life jackets on coat hangers - On a bar coming out of the wall - On a trolley with wheels <p>If jackets must be stored packed away ensure completely dry before doing so.</p>
<p>Inflatable dinghy</p> 	<p>Rinse with fresh water and store in a secure location. Ensure boat is stored somewhere it is not going to get punctured and damaged. Some different examples include:</p> <ul style="list-style-type: none"> - Up right - Stowed away in supplied bag <p>If boat must be stored packed away ensure completely dry before doing so. <i>For further details, see instruction sheet supplied with boat</i></p>
<p>Throw Ropes</p> 	<p>After training, rinse with fresh water and hang to dry. Once dry hold bag between legs and feed the rope into the bag. Ensure there are no knots for next training.</p>
<p>Safe Boating Certificates</p> 	<p>Keep in a safe, dry area. Please ensure all students who complete the programme receive a certificate. Contact Lisa at Coastguard Boating Education when you require more.</p>
<p>Grab bag</p> 	<p>Keep in a secure location – keep a list of contents.</p>
<p>Dummy VHF & EPIRB</p> 	<p>After use, make sure they are dry and stored in grab bag.</p>
